LOW COST ONLINE INKJET PRINTER

On-Line Industrial Non-Contact Ink Jet Printer **Model IJP - P2128 (Maplejet-Canada)**, which is a Zero Maintenance, high resolution, FOUR line (character height 1 to 18 mm) printer. It can be installed on any production lines to print B.No., Mfg.Date, Exp.Date, MRP ₹, Serial No., etc. on bottles, pouches, labels, cartons, Pipes, etc. Through the COM Port Computer Link (Win-XP), it is capable of printing **Logos, Scannable Bar Codes, Hindi / Regional Language & up to 8 lines** data in any Font, also with option of 90° traverse print.

DIGITAL CYMK-W POUCH/LABEL PRINTER

Short Run Digital **CYMK-W** Pouch / Label Ink Jet Printer **Model IJP-DPL600 (A3)**, is a 1200 dpi, outstanding print quality, higher print speeds, media flexibility, A3 size colour printer with **WHITE** spot colour to print on darker media. Suitable for low-small batch printing for labels or pouches (standby or zip-lock). Printing white graphics either traditionally white media or printing.

HAND-HELD INK JET PRINTER

AIMS brand (Made in INDIA) Handheld Non-Contact Ink Jet Printer **Model IJP-M3S /M3S+/M3S-Max**, is a Battery Powered, 300 dpi Six / Twelve / Twenty line Printer to print B.No., Exp. Date, Serial No., Logos, 1D/2D Scannable Variable Bar Codes, etc. on labels, cartons, pouches, etc. **It can also be mounted on conveyor / stand for On-Line Printing.**

CIJ REPLACEMENT PRINTER

Smallest CIJ Replacement On-Line Non-Contact Ink Jet Printer **Model IJP - MX1-F (13.5mm)**, with **ink throwing distance of 12mm** (instead of 2 ~ 5 mm as per standard HP-TIJ-2.5 printers). It is a **TRUE REPLACEMENT FOR CIJ PRINTERS** which have very high maintenance & running costs. It is a Compact design, Zero Maintenance, high resolution, SIX line (character height 2 to 13.5 mm) Printer & can be used to print B.No., Exp.Date, Time, Serial No., Logos, Scannable Variable Bar Codes, etc. on labels, cartons, pouches, bottles, etc. It is fully programmable using the 5-inch full colour Touch Screen LCD where it can print 6 lines Data at a very low price.

SMART THERMAL TRANSFER OVERPRINTER (TTO)

Industrial Advanced Smart Thermal Overprinter **Model TTO-W30J** is an enhanced smart product the upgrade of traditional TTO Japanese Kyocera 32mm printing addition to using it to print of Production Date, number, time, etc., you can also print any 1D product traceability code, graphics and other content as It can integrate seamlessly range of flexible packaging nes & can print clear legible numeric, logo, barcode as text on both intermittent and speed production lines. Screen controls the Settings & Coding matter. Stable printing quality without puncture of packaging material & smudged printing.

16 DOTS HAND INK JET PRINTER

Industrial Handheld Non-Contact Large Character Ink Jet Printer **Model IJP - M10 (63mm)**, which is a Zero Maintenance, Battery Powered TWO line (character height 25 to 63 mm) Printer & can be used on Porous / Non-Porous products to print B.No., Exp.Date, Time, Serial No. (AGMARK), Logos, etc. on labels, cartons, bags, drums, containers, etc. It is an ultra-compact portable and light inkjet printer equipped with a print-head with electromagnetic valves. It is battery operated and WiFi controlled & is fully programmable through its Touch Screen where it can print 2 lines Data at a very low price. It is also capable of printing Multi-Segment / Grouped messages upto 6 lines.

LOW COST ON-LINE INKJET

LOW COST Industrial On-Line Non-Contact Ink Jet Printer **Model IJP - T-360-O (18mm)**, which is a Zero Maintenance, high resolution, **EIGHT line** (character height 1.2 to 1.8 mm) printer. It has Stainless Steel construction & can be installed on any production line to print B.No., Mfg.Date, Exp.Date, MRP ₹, Serial No., Logos, Scannable variable Bar-Codes, etc. on bottles, pouches, labels, cartons, Pipes, etc. also with option of **90° traverse print**. It is fully programmable using the 5-inch full color Touch Screen LCD.

LARGE CHARACTER UV INK JET PRINTER

Large Character On-Line Non-Contact Ink Jet Printer **Model IJP-X72**, using 72mm Japanese Seiko Printhead, is a Zero Maintenance, high resolution, Character height 1 to 72 mm printer. It can be installed on Porous & Non-Porous production lines to print B.No., Mfg.Date, Exp.Date, MRP ₹, Time, Serial No. (AGMARK), High Quality Logos, also with option of 90° traverse print on bottles, pouches, labels, cartons, Pipes, etc. It can accept variable data from external sources like Weighing Scales, PLCs, etc. It can print variable High Resolution, Scannable 1D / 2D (Datamatrix / QR) Barcodes with changing / serial numbers as required for Primary / Secondary & Tertiary Packaging in the Pharmaceutical Industry. It can also be provided with UV Inks & UV-Curing System for permanent print which **cannot be removed with Thinner** also on any substrate.

LARGE CHARACTER HAND INK JET PRINTER

Industrial Handheld Non-Contact Large Character Ink Jet Printer **Model IJP - 480H (72mm)**, which is a Compact design, Zero Maintenance, 185 dpi high resolution, character height 1 to 72 mm Printer & can be used on Porous / Non-Porous products to print B.No., Exp.Date, Time, Serial No. (AGMARK), Logos, Scannable Variable Bar Codes, etc. on labels, cartons, pouches, drums, containers, etc. It is fully programmable using the 5-inch full color Touch Screen LCD & is also capable of printing Multi-Segment / Grouped messages.

TABLE-TOP INKJET PRINTER

Table Top Touch Screen Non-Contact Ink Jet Printer Model IJP-X2, can be used on Porous / Non-Porous products to print B.No., Exp.Date, Serial No., Logos, Scannable Bar Codes, etc. on cartons, pouches, containers, tins, etc. Data is composed on it's Touch Screen. It offers shelf to hold the products. The printing head can be adjusted in or out by 3mm and can print on the bottle neck or bottom of cans. **12.7mm Print**

EGGS GRADING MACHINE

Egg Sorting / Grading Machine Model EGM-361, is an automated equipment used to inspect the quality of inside and outer shell of eggs and **classify them by weight**. It can classify eggs into 5 grades with an accuracy of ± 1 gram. A light bulb can be installed in the middle of the conveyor belt to detect the quality of eggs.

FLYING ONLINE LASER PRINTER

Industrial On-Line/Off-Line 30W Smart Fiber Laser Printer Model SLP-F30-O is a long-term alternative to ink-jet printers. It is the fast-moving workpiece for on the production line without & can carry out high-quality laser marking which is clear, effective and cannot be erased (for security). It runs maintenance-free for more than 1,00,000 hours, using no consumables and improving efficiency.

AUTOMATIC LABEL ROLL PRINTER

High Speed Label Roll Winder with Counter (with optional Printer*) Model LPM-100 is a customized machine for printing Label Rolls at high speed. Optionally fitted with ANY Ink Jet Printer for registered printing of Serial No., B.No., MfgDt, Exp Dt, MRP, etc. on Label rolls at exact location. **It can also be supplied as Label Dispenser for dispensing Labels one by one for manual labeling or as Label Counter.**

HAND CODER FOR CARTONS

Hand Held Coder Model HHC-95-SP is a large character manual printer for in-house printing of **Batch No., Product Name, Handling Instructions, LOGOs, etc. in place of Stencils or Screen Printing**. The message to be printed is composed by push fitting the easily changeable grooved stereotypes. Maximum printing area is 95 mm X 300 mm. **This coder is suitable for printing LOGOs & fixed information on Corrugated Cartons, Plywood, etc.**
Model HHC-190-SP for printing area of 190 X 300 mm available.
Model HHC-95-SN for plastic bags & barrels available.

FLAT BELT CODING CONVEYOR

Stainless Steel Continuous flat belt conveyor Model FBC-1500A/B with PVC conveyor belt of size 200/300 mm width X 1500 mm long & 750 mm height with variable speed. It has adjustable guides for straight guiding of pouches, cartons, bottles, cans, etc. to provide proper conveyance to objects for proper Ink Jet Printing (**Model IJP-P2128 / M3S-O / X-72 / CL7 / etc.**).

100mm LARGE INK JET PRINTER

World's Biggest AIMS brand (Made in India) Handheld Non-Contact Ink Jet Printer Model IJP-M3S-ULTRA (100mm), which is a 300 dpi, character height 1.2 to 100 mm Printer & can be used on Porous / Non-Porous products to print B.No., Exp.Date, Time, Serial No., Logos, Scannable Bar Codes, etc. on pouches, cartons, wood board, etc. It is capable of printing Multi-Segment / Grouped messages. **It can be mounted on conveyor / stand for On-Line Printing of INGREDIENTS or on Corrugated Cartons.**

SCANNING EGGS TRAY PRINTER

Colored Touch Screen Scanning Single-Head Egg Tray Inkjet Printer Model IJP-EGG-E30S, which is an economical, Zero Maintenance printer specially designed to print on 6 rows of eggs on tray with the use of **Print-Head traversing system**. The system comes complete with Tray Forwarding System to feed egg trays & can print Company Name, Serial No., LOGO, Pro. Dt., Exp. Dt., QR Code, etc. It is a High-Speed multiple pass printer & has a 4.3" Colored Touch Screen Display for setting all parameters. It has a capacity of printing appx. 3,800 eggs / hour.

MOPA COLOUR LASER

Industrial Compact 30W Smart Colored MOPA Static Laser Printer Model SLP-M30-T is a long-term alternative to ink-jet printers. **Pulse frequency and pulse width of MOPA can be adjusted independently.** Therefore, Mopa lasers can achieve effects of color marking (on stainless steel) and fine marking of mobile phone cases.

MOTORIZED PAD PRINTING

Closed Cup Motorized Pad Printing Machine Model PPM-520C is an automated replacement for **Screen Printing** & is used for very high quality printing of size up to $2\frac{1}{2}" \times 2\frac{1}{2}"$ for LOGOs, bar codes, issues, etc. on any flat, curved or uneven surface on metal, plastics, glass, ceramic, etc. at speed upto 2000 strokes per hour. **This coder is suitable for printing fixed information on bottles (curvature), etc. Multiple machines can be used together for multiple colour printing.** **Model PPP-Y200/Y222 Pneumatic type with single & double colour also available.**

ONLINE HOT-ROLL CODER FOR FFS

Fully Automatic Continuous On-line Hot Roll Rotary Coder Model HRC-35-OC uses instant dry hot wax ink roller and heated brass stereotypes for smudge free printing. **This type of coder is suited for continuous Form Fill Seal machines, flow wrapping / masala packing systems, etc.**

AUTO-FEEDING STACKING CONVEYOR

High Speed Auto-Feeding Stacker with Conveying System Model SCS-300-A/B/C Stainless Steel machine for automatically dispensing pouches, labels & cartons (Max. size 300 mm X 200mm) at high speeds. This finds wide usage with the Ink Jet Printers (**Model IJP-P2128 / M3S-O / X-72 / CL7 / etc.**).

SMALLEST HANDHELD INKJET

World's Smallest Handheld Ink Jet Printer Model IJP-H1 / H2 (12.7 mm), SIX line (character height 1.2 to 12.7 mm) Printer & can be used on Porous / Non-Porous products to print B.No., Exp.Date, Serial No., Logos, Scannable Bar Codes, etc. on labels, cartons, pouches, containers, etc. Data to be printed can easily be composed on inbuilt Touch Screen. It is suitable for small objects of variety of shapes and can print on the bottle neck or bottom of bottle. **12.7mm Print**

6-HEAD EGGS TRAY PRINTER

Six-Head Egg Jet Printer Model IJP-EGG-EP6, which is a Zero Maintenance printer to print on 6 rows of eggs simultaneously. It can print LOGO, Pro.Dt., QR Code, etc. It is a High Speed single pass printer & has a 5" Colored Touch Screen Display for setting all parameters. It has a capacity of printing 15,000-30,000 eggs / hour.

HAND HELD LASER

World's Lightest Industrial Handheld Laser Marking Machine Model SLP-F30-HL1 (110x110 mm), which has adjustable laser intensity with support for greyscale printing, Mains / Battery* Powered permanent Printer to print B.No., Exp.Date, Time, Logos, Scannable Bar Codes, etc. on labels, cartons, pouches, pipes, drums, containers, etc. It is fully programmable using the 7-inch full color Touch Screen LCD or with input from USB Pen Drive.

HOT WAX FEEDING CODER

High Speed Table Top Coder Model TTC-380-T for registered printing of B.No., Mfg. Dt., Exp. Dt., MRP ₹, etc. using **Print-Dry Solid Wax System**. The code is composed by changeable brass characters. The pouches/labels/cartons are stacked in the input tray, printed & stacked.

ON-LINE MOTORIZED PIPE CODER

Motorized On-line Pipe Coder Model PPC-35-O is a PLC based printer for printing of **ISI mark, Company Name, Logos, etc.** on all types of rigid or soft PVC / uPVC / HDPE pipes & tubes, of dia. 20 mm to 200 mm during extrusion or offline also. Printing repeat is settable. The nylon stereotypes for print message is stuck on the print wheel & the colour of print is changed by changing the ink bottle. **Attachment for continuous line available.** **Double colour (to print pipe in 2 colours) and Twin Pipe printing machine also available.**

TRUCK LOADING CONVEYOR

Truck Loading Conveyor Model TLC-100 is an extremely durable material handling equipment & used in loading / unloading of boxes and gunny bags into truck and used for moving them into higher places for stacking purposes. It has a linear speed of 20 mtr per min and its output speed of 15 to 25 cartons per

PEDAL HEAT SEALER FOR POUCHES

Direct Heat Pedal Sealer Model DPS-400 with heavy duty Aluminum body & auto heat cut-off for sealing all types of filled pouches of tea, snacks, etc. keeping hands free & avoids spills during sealing. **Model PHL-700L Pneumatic Heavy Duty type heat sealer** for upto 50 Kg bags also available.

VACUUM PACKAGING SYSTEMS

Table Vacuum Packager Model TVP-260 of size 10"x12" that revolutionizes the way you store food to Vacuum & then Seal products which increases shelf life, retains aroma & prevents breakages. **Model VPM-500-2D** of size 20"x20" for faster production with option of Nitrogen Gas Flushing.

SKIN TRAY SEALING

Table Top Vacuum type Skin Tray Sealing Machine Model VSS-240T (140x190 mm x 2) for vacuum skin packing & sealing of all types of food items. It not only prolongs the shelf life, but also effectively protects the appearance of the food itself as the film is completely attached to the food to form a vacuum-like environment. *It is better than vacuum packaging in isolating air and bacteria, preventing moisture and oxidation, and extending the shelf life.*

L-BAR SEALER / CUTTER

Automatic Pneumatic L-Bar Sealer Model LBS-1000 of size 15"x 20" where the product is put into the PVC / POF / PP shrink film which is then cut & sealed by this machine to proper size, after which the product is moved onto the conveyor of Shrink Tunnel through the heat chamber.

CARTON STRAPPING / BANDING SEALER

Semi Automatic Carton Strapping Machine Model CSM-560-I is suitable for strapping cartons, wooden boxes, etc. of various heights very quickly (without the need for bothersome strapping tools & metal seals).

INDUCTION SEALING FOR LIDS

Continuous Induction Sealing Machine Model CISM-50 utilizes the electromagnetic induction principle to produce instant high heat to automatically adhere the melted Wad type aluminum foil bung hole of PP / HDPE / LDPE / PET bottles / jars.

CONVEYORIZED POUCH SEALER

Vertical / Horizontal Band Sealing Machine Model BSM-150-V/H for sealing small bags or filled pouches of tea, snacks, etc. of all materials up to 11" height (max. 2/5 Kgs). **Model BSM-150-G** with Nitrogen Gas filling for longer shelf life available. 5Kg stand available for above.

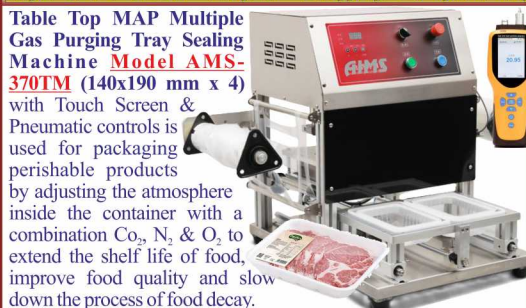

DOUBLE CHAMBER VACUUM

Double Chamber Vacuum Packager Model DVP-500-4SB of size 20"x20" allows operator to place pouches in 2nd chamber while the vacuum cycle is in progress in the 1st chamber. Air can cause food to become stale, fermented, dried out or develop freezer burn. It prevents moisture absorption and oxidation keeping food fresher longer. Optional Nitrogen Flushing.

TABLE TOP MAP TRAY SEALER

Table Top MAP Multiple Gas Purging Tray Sealing Machine Model AMS-370TM (140x190 mm x 4) with Touch Screen & Pneumatic controls is used for packaging perishable products by adjusting the atmosphere inside the container with a combination Co., N, & O, to extend the shelf life of food, improve food quality and slow down the process of food decay.

SHRINK PACKAGING SYSTEMS

Shrink Packing Tunnel Model SPT-452S of size 10"x18" where the product is put into the PVC/POF/PP shrink sleeve & passed through the heated tunnel to give skintight transparent packing that is tamper proof. **Model SPT-12S** of size 6"x10" also available.

CARTON CLOSING / TAPING SEALER

Carton Taping Machine Model CTM-6050 with 2 2/3" Taping Heads is designed for sticking of the BOPP type self adhesive tape onto the Top & Bottom flaps of the cartons simultaneously along with pressing the tape for a tight seal for uniform cartons.

SKIN / BLISTER PACKING

Blister Packaging Machine Model BPM-500 The commodity packed is featured as transparent, damp proof, dustproof, secure and pleasing to eye. **Skin Packaging Machine Model PSP-390** has no need for mould & can prolong storage life and strength of products with tight pack.

VACUUM/NITROGEN POUCH SEALER

Vacuum & Nitrogen type Band Sealing Machine with Printing Model BSM-1080-V for vacuuming & sealing small bags or filled pouches of tea, snacks, etc. It is designed to Vacuum and/or Gas-Flush (such as nitrogen), Seal and Code in one continuous sealing and packing machine making the sealing process very easy, fast & efficient.

OPEN BIG BAG VACUUM PACKAGER

Horizontal Open type Vacuum Packager Model VPM-500-H can accommodate any length of pouch/bag. Vacuum packing keeps your food fresher longer. **Model VPM-600-V** Vertical Open type Vacuum with Nitrogen Gas filling for longer shelf life.

VACUUM + MAP MULTIPLE GAS TRAY SEALER

MAP Multiple Gas Purging with Vacuum Tray Sealing Machine Model MAP-370TFV (140x190 mm x 4) is used for packaging perishable products by vacuuming & adjusting the atmosphere inside the container with a combination of Co., N, & O, to extend the shelf life of food, improve food quality and slow down the process of food decay. **Conveyor Type Vacuum / Skin Packing and MAP Multiple Gas Purging Model MAP-450TFV** machine also available.

WEB SEALER WITH SHRINK WRAPPER

Auto / Semi-Automatic Shrink Packager Web Sealer Model SWS-5038B for collating bottles in groups of 12, 24, 36, etc. & shrink wrapping of bottles, jars, cans, etc. in tray or without tray. Speed of 4 to 6 per minute. *Specially designed for production line of beer, beverages, mineral water, fruit juice, dairy products, etc.*

STRETCH WRAPPING SEALER

Box Stretch Wrapping Machine Model SWM-600PS is used to wrap stretch film around loaded cartons which provides extra support while the products being transported & stored to protect them from tip, spill or from being damaged.

CONSUMABLES & PACKING MATERIALS

INK / SOLVENT INK NK-AI	RUBBER / NYLO STEREO	INK CARTRIDGE	BRASS / METAL CHARACTERS
HOT INK ROLL	HOT FOIL RIBBON	INDUCTION WAD	ALUMINIUM LIDS
BOPP / DOUBLE SIDE TAPE	STRAPPING ROLL	STRETCH ROLL	SHRINK ROLL

SEMI-AUTOMATIC GLUE LABELING

Semi Automatic Bottle Glue Labeling Machine Model BLM-100 for automatic sticking of paper labels on to various metal, glass or plastic bottles & cans, etc. with automatic glue application. The machine has automatic feeding of label stack by slant.

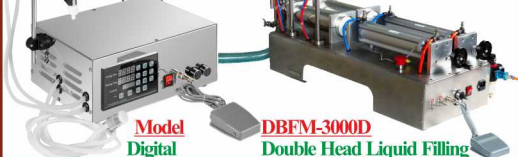

Model BLM-100

AUTOMATIC 4 HEAD LIQUID FILLING

Automatic 4 / 6 Head Bottle Filling Machine Model AFM-100 is suitable for filling Water, Beverages, etc. with no bottle no fill attachment. The speed depends on number of syringes & it has a diving arrangement for foaming products as well as specially designed nozzles for drip proof filling. All contact parts are made of SS (304/316). The stroke of the syringe is adjustable.

SEMI-AUTOMATIC LIQUID FILLING

Semi-Automatic Bottle Filling Machine Model LFM-100S for filling Pharmaceuticals, Beverages, etc. All contact parts are made of SS 304. The stroke of the Pneumatic cylinder is adjustable to adjust for the quantity to be dispensed. Non return valve is designed to achieve drip proof result.

Model LFM-100S
Digital Double Head Liquid Filling

SEMI-AUTOMATIC PASTE / PICKLE FILLER

Semi-Automatic Paste Filling Machine Model PFM-1000D can handle products with different viscosities with contact parts made of SS 304. It possesses clean cut-off for drip free filling.

Pickle Filling Machine
Model PFM-1000P

POWDER / GRANULE FILLER

Mini Powder & Granule Filling Machine Model PGF-200/5000 (1 - 200 / 5000 gm) uses Micro-computer control for automatic fast & accurate dispensing for packing. Free Flow powders & granular materials with contact parts made of SS. The machine is small size, light weight, easy to operate and uses vibratory feeder which does not press or damage fragile items useful for spice powder, sugar, pulses, etc.

SECURITY EDGE STICKER LABELING

Semi-Automatic Edge Sticker Labeling Machine Model ELM-100 for applying Security or Flap Closing Sticker labels at Right Angle on Flat boxes/cartons at speeds up to 40 per minute. Just press and hold the box and push it gently to complete the right-angle seal. Sealing of outer casings of pharmaceuticals, cosmetics, foods, and precision parts.

AUTOMATIC ROPP / PLASTIC CAPPING

Fully-Automatic On-Line Plastic / Metal Cap Locking & (ROPP) Capping Machine Model ACM-100 for automatically fixing the caps onto PET or Glass type bottles moving on conveyor. Machine is equipped with vibratory type bowl feeder depending on cap shape and size for continuous feeding of cap for online operation on any liquid or powder filling line. The sealing head of the machine moves up & down to seal the cap & when twisted, opens with a snap. It is used in pharmaceutical, food, pesticides, cosmetic & other Industries.

SEMI-AUTOMATIC ROPP / PLASTIC CAPPING

Multi-Functional Plastic / Metal Cap Locking & (ROPP) Capping Machine Model MCM / LCM-50D for automatically fixing the caps onto PET or Glass type bottles. The sealing head of the machine automatically moves up & down & the cap gets sealed & when twisted, opens with a snap & leaves a separate ring at the bottom. It is used for locking of plastic or ROPP metal caps on beverage & pharmaceutical bottles, etc.

TUBE CRIMPING / SEALING

Tube Sealing Machine Model TSM-100 is suitable for sealing of Colgate type plastic/lami tubes & Pouches. This is a compact machine with digital temperature control & Electronic sealing Timer used to maintain the Temperature & Time required for sealing. Speeds up to 30 tubes per minute is obtainable.

METAL CAN SEAMING / CROWN CAPPING

Multi-Functional Metal Can Seaming Machine Model MCS-8.5 for automatically seaming & sealing the lids onto Metal or Plastic Cans.

AUTOMATIC POWDER / GRANULE FFS

Free Flow Powder/Granule FFS Machine Model FFS-100/1000-PG (100g / 1000g) includes a semi-automatic filling machine combined with automatic bag making for filling of tea, powder, pulses, etc. in Sachets.

AUTOMATIC TOP STICKER LABELING

Fully Automatic Horizontal Sticker Labeling Machine Model AHLM-100 for applying sticker labels from top on Boxes, Pouches, Containers, etc. at speeds up to 100 per minute. Automatic feeding conveyor can be provided optionally. Online Inkjet printer for variable data can be integrated to print variables like BNo, MfgDt, ExpDt, MRP, Ingredients, etc. along with Serial No. & Bar Code.

AUTOMATIC SIDE STICKER LABELING

Fully Automatic Table Top Sticker Labeling Machine Model AVL-50T - Round for applying sticker labels on round bottles at speeds up to 80 bottles per minute. Optionally Inkjet printer for variable data can be integrated to print BNo, MfgDt, ExpDt, MRP, Ingredients, Address, etc. along with Serial No. & Bar Code also available.

SEMI-AUTOMATIC ROUND LABELING

Semi-Automatic Round Bottle Sticker Labeling Machine Model SLM-100A for applying labels on containers of dia. 20 mm to 100 mm at speeds up to 40 bottles per minute. Online Batch / Bar Coder or Inkjet printer can be integrated on the labeller to print variables like BNo, MfgDt, ExpDt, MRP, Product Name, Serial No., etc.

SEMI-AUTOMATIC FLAT LABELING

Semi-Automatic Flat Sticker Labeling Machine Model SLM-100B for applying labels on Flat bottles at speeds up to 40 bottles per minute. Online Batch / Bar Coder or Inkjet printer can be integrated on the labeller to print BNo, MfgDt, ExpDt, MRP, Product Name, Serial No., Ingredients, etc. Suitable for applying Labels on pouches, cartons, containers, Oval / Round Bottles, envelopes, etc.

CROSS FOLD PAPER FOLDING

Automatic A3 Paper Folding Machine with Cross Fold Model PFM-8B/4K for folding of papers upto 4 folds in 1 pass. Two machines are connected together for collaborative operation. It is suitable for folding papers in various sizes & thickness. It is fed smoothly & has step-less speed adjustment of front-end machine and 8-gear program regulation of back-end machine. It can be widely used in manufacturing plants, government organizations.

HORIZONTAL FLOW WRAP FFS

Horizontal Flow Wrap Packing FFS Machine Model FFS-FW350 are ideal for packing of objects, containe rs, biscuits, cookies, etc. Machines that form the package, fill it with a product, and seal it are known as Form-Fill-Seal machines. These machines ensure hygienic of the product along with the keeping moisture away from the product for retaining the free flow texture of the same.
